La Mancata Presenza Della

la Soluzione del Problema

Published and Distributed Under

Authorized by the act of October 3,  
1917, on file at the Postoffice of Phila-

Postmaster General.

Washington, D. C., 17 dicembre.—L'occupazione di Fiume da parte delle truppe regolari italiane, secondo un accordo interceduto tra il Governo Italiano e Gabriele D'Annunzio, dovrà essere ritenuta come un atto di ribellia, in attesa di una finale decisione delle Potenze dell'Intesa e le loro ultime disposizioni. Ciò secondo dispetti ricevuti oggi a Washington.

Si dice che il Governo Italiano sta attendendo per prendere possesso di Fiume in detti termini, restando fiducioso che la sua forte aspirazione per quella città sia riconosciuta.

Nel giro diplomatico si dice che il ritiro dei membri americani dal Supremo Consiglio della pace, probabilmente inciterà la soluzione del problema di Fiume, che non fu possibile di venire con la partecipazione degli Americani.

Roma, 17 dicembre.—Il Messaggero dice, oggi, che molto probabilmente il Presidente del Consiglio dei Ministri, On. Nitti, coglierà l'occasione delle vacanze parlamentari per andare a Lon-

## Save \$1.48 On Every Ton Of Coal You Burn

By using Kunkel's coal you get 1/3 more heat than you get from a ton of ordinary coal, without paying more for it. Based on tests made by Booth, Garrett & Blair, eminent chemists.

Consider These Figures

1 ton ordinary coal (stove) costs \$11.90  
2/3 of a ton Kunkel's, giving same heat, 10.40

1/3 of a ton saved by using Kunkel's \$1.48

These figures explain why Kunkel is the largest independent coal dealer in West Philadelphia, without having a salesman on the street to solicit trade.

Solve Your Fuel Problems. Burn

### "UTILITY" COKE

Will hold fire perfectly over night. This Coke is virtually all carbon; free from slate and other impurities, it burns until reduced to a fine ash. You will have no ashes to sift, no clinkers, no gases and less smoke.

Use in any Furnace, Heater or Range. It contains more heat units and goes farther pound for pound than any other fuel. Do not compare this with "Gas House" Coke or other inferior grades. This stands on its own merits and is the cleanest fuel obtainable.

## Readers of Mark Twain

will remember with what astonishment Tom Sawyer contemplated the fact that his boy friend had been to Constantinople, Missouri, which was five miles from their own home. This friend, therefore, had seen the Court House at Constantinople and his very eyes had gazed with awe upon that Court House which was said "to be roofed with tin."

If that tin roof was equal in quality to standardized NU-DURA-TIN, it is still protecting that Court House from wind and weather, storm and rain.

That is one of the wonderful things about NU-DURA-TIN Roofing. It will protect any building covered with it for from thirty to fifty years and with proper care as long as seventy-five years.

## USED CAR EXCHANGE

AUTHORIZED BUICK DEALERS

A Rebuilt Buick Car is ALWAYS a Better Investment Than Many New Cars

This is especially true now when strikes and shortages of materials and labor seriously interfere with the production of good new cars. These conditions have also lowered the quality of workmanship and materials as compared with former standards. Notwithstanding this, prices for new cars, today, are abnormally high and orders placed for later delivery are subject to still higher prices—bound to come.

Delays and unfulfilled promises are increasing in frequency. You might not get delivery of the new car you order, until the 1921 models are announced.

In a word—delivery on any assured date of a good quality-built, new car, at a fixed price today is practically impossible.

### THE OBVIOUS SOLUTION

A Rebuilt Buick (as turned out by our shop) enables you to have and use, when wanted, a good car of reputation, with in-built quality and high re-sale value, if traded or sold when conditions again become normal. You can buy one of these well conditioned cars, subject to future delivery—at today's price. These cars were built when standards of workmanship and materials were at top notch.

We are offering a GOOD selection NOW, including Roadsters, Tourings (some with enclosed winter tops); also Coupes. Most are late Model Sixes.

You will see the logic of these facts if you analyze the situation carefully.

It will pay you to investigate our Rebuilt Buick stock at once.

situation. The execution of these measures, it was added, entailed the participation of the United States, whose adherence to the agreement was awaited. It has become known that the representatives of the allied and associated powers have insisted further upon the necessity of American co-operation in the relief of Austria. Ambassador Wallace was unable to enter into any undertaking for the United States without instructions from his government, but he has cabled to Washington setting forth urgently the need of taking measures in Austria's aid.

### What a pity she doesn't know Resinol Soap would improve her complexion

Remarks like the above are passed about many girls whose appearance would be most attractive were it not for a poor skin. RESINOL SOAP is just what such girls need to help in overcoming their complexion difficulties. It does more than remove dirt—it gets right after those clogged pores, and excessive oiliness, and it benefits the skin cells. When a little Resinol Ointment is used in connection with Resinol Soap, relief is hastened, and unless the trouble is due to some internal disorder, the complexion is usually cleared in a short time.

RESINOL SHAVING STICK is very popular with men who like the way the Resinol in it soothes the face.

## Owners of Truck-Fleets Use Atlantic Gasoline the Year 'Round

An overwhelming majority of fleet-owners, whose hauling-costs must, of necessity, be pared to the absolute minimum, use Atlantic Gasoline regularly. They do not decide the question of what-motor-fuel by the toss of a coin.

Theirs is the business of transporting daily the greatest loads the longest distances in the shortest time at the lowest operating-cost. Hit-or-miss gasoline is automatically precluded at the outset.

For the benefit of those truck-users who may not yet know the tangible economy of Atlantic Gasoline, it is a pleasure to point to the industrial plants and transportation companies who regularly rely upon Atlantic Gasoline to propel their motor-vehicles at a profit.

A postal-card or a 'phone-call will bring an Atlantic representative to discuss, without obligation to you, the commercial advantages of this master motor-fuel.

The letter refers to the movements tending toward the separation from the Austrian republic of Vorarlberg, Salzburg, Tyrol and western Hungary, and declares the success of such movements would involve complete disintegration of the Austrian republic.

Detroit Legion Opposes Haywood  
Detroit, Mich., Dec. 17.—(By A. P.)—Objecting to the scheduled appearance here next Sunday of William D. Haywood, I. W. W. leader, to make an address, Learned Post, of the American Legion, telegraphed to Judge K. M. Landis, of the Federal Court at Chicago, asking him to issue an order forbidding Haywood to come to Detroit. A committee was also appointed to wait on Mayor James Couzens and Police Commissioner Inches in an effort to prevent the address.
